NURSING ISN'T
JUST A JOB
it's a calling!

Nurses
who care 

FUTURE NURSES
who care 

About Us

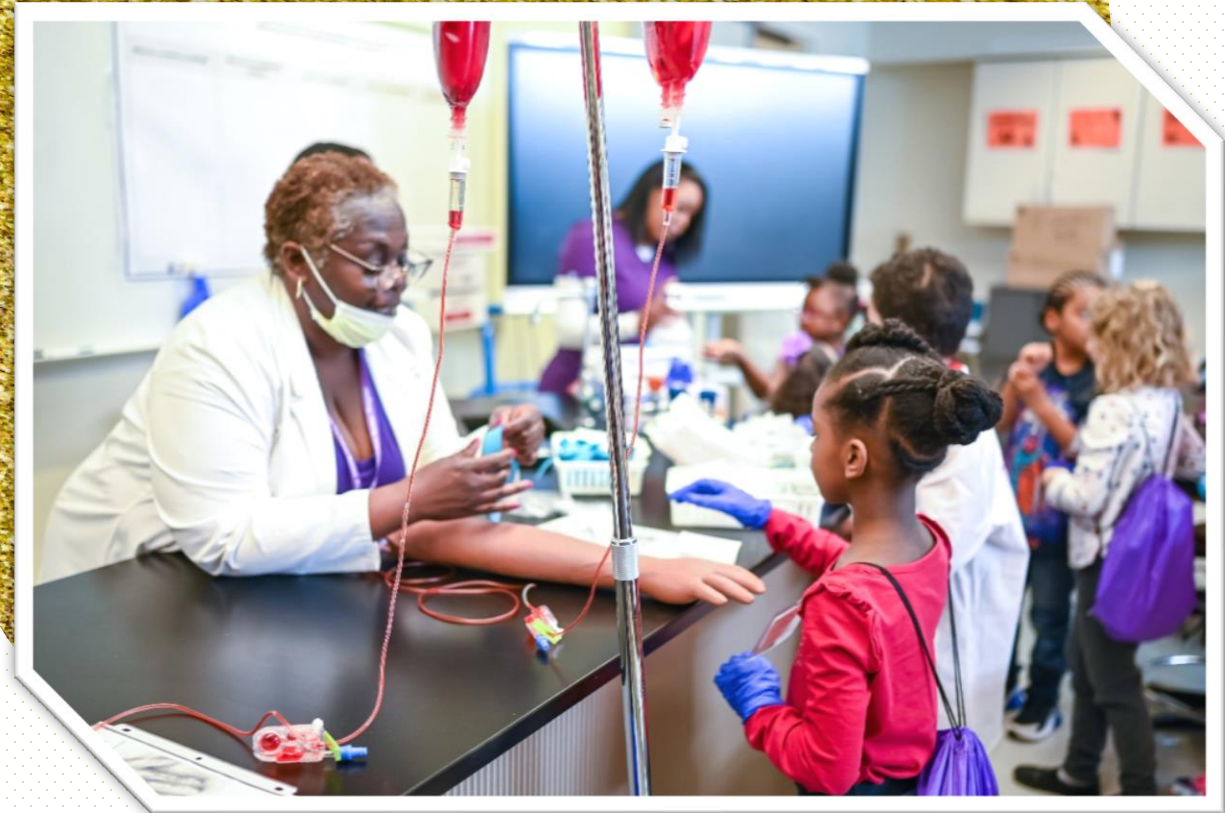

Nurses Who Care is all about helping nurses become their very best version of themselves.

Who are We

The Future Nurses Program is a transformative initiative aimed at nurturing the passion and potential of children ages 5-15 years, who aspire to pursue careers in nursing and healthcare. Through engaging workshops, hands-on activities, mentorship opportunities, and educational resources, we strive to empower these young minds and inspire them to pursue their dreams in the healthcare field.

Vision

To decrease the shortage in the health care profession through educational resources, employment referrals, and mentorship

"Nurse T"

Teberah Alexander, a beacon of compassion and innovation in the healthcare industry, has dedicated her life to uplifting others through her remarkable nursing career and entrepreneurial endeavors. Born and raised in Michigan, Teberah's journey began with a deep-seated passion for nursing and a desire to make a meaningful difference in people's lives.

After graduating from Michigan State University in 2003 with a Bachelor's Degree in Nursing, Teberah embarked on a journey that would shape her into the visionary leader she is today. She honed her skills and expertise by serving in various healthcare settings, including Labor and Delivery, Cardiac, ICU, and Long Term Care Units. Throughout her early career, Teberah witnessed firsthand the profound impact compassionate care could have on patients and their families.

Driven by her unwavering commitment to improving the quality of life for others, Teberah founded Compassionate Home Care Services, a pioneering company dedicated to providing essential support to older individuals whose health needs were often overlooked. Her dedication to enhancing the lives of dementia patients led her to become a Certified Dementia Practitioner, and she established Kathelene's Adult Day Care Center in loving memory of her grandmother, Kathelene.

Teberah's passion for nursing excellence and her desire to empower others inspired her to establish Nurses Who Care, a platform aimed at nurturing and mentoring aspiring nurses to become exceptional healthcare professionals. Through initiatives like the Future Nurses Program and the Caregivers Who Care Program, Teberah has continued to shape the next generation of compassionate caregivers.

In recognition of her outstanding contributions to the nursing profession and her unwavering commitment to community service, Teberah has received numerous accolades and awards. She is the proud recipient of the Detroit Spirit Award, the MSU Alumni Service Award, and the Career Master Leadership in Action Award, among others. Her dedication to her alma mater led her to serve on the board of the Michigan State University College of Nursing Alumni Association, where she continues to advocate for excellence in nursing education.

Teberah's impact extends beyond the healthcare sector, as she is actively involved in her community and various professional organizations. She is a dedicated member of the Michigan State University Alumni & Black Alumni Associations, the Michigan Nurses Association, and the professional minority nursing sorority Chi Eta Phi Inc. Her commitment to nurturing future leaders is further demonstrated by her role as a proud mother to Amiya Alexander, President of Amiya's Mobile Dance Academy and a distinguished alumna of New York University.

As Teberah continues to blaze trails in nursing and entrepreneurship, her latest venture, Nurse T's Body Bar, stands as a testament to her unwavering dedication to holistic wellness and compassionate care. Through her innovative spirit and tireless advocacy, Teberah Alexander has redefined the meaning of nursing compassion, leaving an indelible mark on the hearts and minds of all those she touches.

NURSE T

Company summary

It's no secret that playtime is an imperative part of a child's social, emotional, and physical development. Having play time with their dolls means using their imagination to develop new, exciting ways to learn and have fun. It means having an adventure through science and nursing.

The Nurses Who Care brand was developed to support like-minded individuals on their journeys to become exceptional nurses and establish successful careers in the healthcare industry.

The Nurse T doll is a high-quality product that can be enjoyed by children and adults, provides therapeutic benefits, educational benefits, and is useful for introducing children to the nursing profession. The Nurse T doll is also useful in providing a source of comfort to patients with dementia through doll therapy to help manage depression, agitation, and to prevent social isolation.

Inspiring The Next Generation of Nurses

Playing With A Purpose

A Premium Doll For Little Aspiring Health Care Professionals

Developed by a registered Nurse. The Nurse T Doll is designed to instill a love for the medical field in young girls and foster their ambition to become the patient care professionals of the future.
